ST. VINCENT'S.

The Inquiry Into the Condition of the San Rafael Orphange.

opyright, 1888, by the California Associated Press. SAN RAFAEL, May 28th.—This morning S. P. Maslin, Secretary of the State Board of Examiners, together with L. W. Maslin, Sergeant-at-Arms to the Commission, and lement Bennett, stenographic reporter, resumed the investigation at St. Vincent's Orphan Asylum. About 10 o'clock the investigation was commenced and continued until 4:15 p. m. Quite a number of boys were examined during the day, and the testimony adduced was very conflicting.

Hiram Foster, one of the inmates of the institution, testified as follows: "We rise at six o'clock and then go to the washroom, after which we have breakfast. I had a both about one mountain. a bath about one month ago. There is no regular time for bathing. Don't care much whether I bathe or not. Have bathed about four times since Christmas. Don't like to stay here, but could give no reason. The boys have had no trouble since Whelen left. Whelen never kicked nor beat me. I never saw him kick nor choke any of the boys. I wait on the table, and eat at a separate able. Have not seen any stale meat nor black potatoes for over a year. Formerly we found them once a week, but not lately. The food is much better now. Several new Sisters came here lately, and they changed matters. Would like to leave here, because the food is poor. Go to school every day, except Sundays and holidays.

father is a cook and travels a great deal, and he does not hear from him often. The last bath was about three weeks ago. Father Croke was always kind to the boys. Have had vermin on me, but have none

Eddy Hannahan testified: Will be 13 years old in July. Have been here two years. Father is dead. Have only bathed twice since Christmas, including the bath to-day. Don't know when I will bathe again. The boys don't bathe in winter. We wear no socks in summer. Get plenty to est. Have pie at Christmas, and get butter and milk occasionally. Have seen bad meat and potatoes on the table, when we had to throw it away. The meat is bad about once a month. Get clean towels in the wash-room every day, but they are used by all the boys. Have never been sick. Have had no head sores, nor any vermin. The Sisters are very kind to all the boys. Had a bath yesterday, and once before since Christmas. Many of the boys have vermin in their heads. never hit me without cause. Charley Forester was next called. He

said: I am 16 years old. Am here 7 years. My father lives on Tehama street in San rancisco. Don't know whether my mother s living or dead. Father called once since Christmas. Whelen beat me when I missed my lessons. He never kicked me, nor ade me touch my toes to beat me Never saw him kick or strike anybody with his fist. The food is good at times. Have often had rotten potatoes and meat. Would like to go home, because I would get better food. Father Croke and the isters are very kind. They never whip

any of the boys.

Andrew Anderson, aged 13, was next called, He testified: I have been here ur years. Father lives in San Francisco. He don't care about me, and never comes to see me. Mrs. Barnes, living at Hyde and Larkin streets, comes to see me. Whelen whipped me for not standing straight. He hit me on the wire on it. He would not whip every time we did not know our lessons, but generally. The food is good. Occasionally we have had bad potatoes, but always have plenty to eat. The meat is good now, since the g boys ran away, which was before the big boys ran away, which was before the fair. Have heard of boys indulging in bad practices, but never saw them do it. Had a bath last week. Have had about twenty baths this year. Managed, to bathe by going with other classes in their turn. My class bathed first trans since Christmes. I have bathed five times since Christmas. I have fine-combed the boys' hair, but did not find many vermin. Some boys have many res. There are twelve boys who comb hair. Very few boys steal baths, as I have done. Whelen treats the boys very good at times. The Sisters treat us very badly. Never received any advice from the teachers. They do not talk much to the boys.

The next called was John Hanrahan, have never been whipped or kicked. Don't know when I had a bath. We wear stock-

etimes the meat is not good.

John Derango, a teacher, was then sworn: I am a native of Switzerland. Have been teaching here two years and a half. Have sixty-five boys in my class. Their ages range from 9 to 12 years. The institution nerally employs six teachers, including the Sisters. The boys are very hard to control. Our method of punishment s not severe. We try moral suasion first, and if that accomplishes no good results we have to use the strap, but never use it on any place but the hands. Seldom saw Mr. Whelen strike any of the boys on the legs. Never saw anybody undeservedly punished. Different punishments are inflicted for different offenses. Sometimes yard, and sometimes the strap is used. Never saw any boys kicked by Whelen. Am constantly in the yard minutes. The boys have one hour at noon. Have never hear of the boys indulging in the good from the bad. The larger boys are kept in a separate domitory from the small boys. CALIFORNIA LAND TITLES. Senator Stewart Criticises the Attorney-

General's Action. [Copyright, 1888, by the California Associated Press.] Washington, May 28th.—A resolution was introduced by Senator Jones of Arkansas, which defended the Attorney-General's office from charges made against it in connection with the institution of land suits in the West made by Senator Stewart last week lones denies that Garland has exceeded his authority in bringing these suits.

Stewart, in reply, said he did not deny that the Attorney-General had a right to institute suits to set aside land patents. He had read a letter written by the Governor of California to the President last year, in-closing petitions from the owners of landgrants in that State, and of lawyers, asking that the Attorney-General discontinue the

suits brought to set aside land patents. This letter related especially to the Los Pulgas grant, and pointed out obstacles in the way of reopening the question of titles that have been considered as settled for many years. Stewart said there has been forty years of litigation to settle land titles in California. Suits ordered to be brought five years ago have not been pushed, and titles, meantime, are clouded. The responsibility rests with the Attorney General. There are eight million acres of land in

A Warning, The modes of death's approach are various, and statisties show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of tuberele germs into the system, and where these germs fall upon suitable soil they start into life and develop, at first slowly, and is shown by a slight tickling sensation in the throat, and if allowed to continue their ravages they extend to the lungs, producing consumption, and to the head, causing catarrh. Now all this is dangerous, and if allowed to proceed will in time cause death.

STATE CONSTABULARY.

The Colusa Sun says:

We haven't got the law for the pursuit and capture of criminals exactly right. The incentive for pursuit, except in so far as an officer takes a pride in the matter, is entirely wanting. The Sheriff of this county was out several hundred dollars on the Hong Di case. He sent a man East after Dixon, and the bill for setual expenses has been hanging fire ever since before the State Beard of Examiners. He has spent considerably over a thousand dollars on the Welling case, and a bill for \$168.65 for the actual expenses of the witnesses to identify the man captured was rejected by the Board of Supervisors the other day. We do not say the action of the Board was wrong, because we do not know the law. We do not come at this time to criticise anybody, but the law. It is plain to us that as the matter stands there is no incentive for an officer to follow up any clue he may have. If some one at a distance informs an officer of the presence of one who has committed a crime, will not the officer he estate long before he spends money looking the matter up, when all the expenses must come out of his own pocket? Mr. Beville informs us that he is paying interest on over \$2,000 that he is out in the pursuit of criminals, with a chance of getting back a portion of what he spent sending for Dixon. Under this condition of affairs, is there any incentive for using any energy in such work? Is the officer not rather interested in giving all "clues" an incredulous smile, and in sitting still?

It is an old, old subject. There is but one way in which to dispose of it, and that is to establish a State constabulary. In a State of such immense area as that of California, the topography of which is so diversified, the distances so great and the means of pursuit of offenders so few and weak, there is absolute need for a force of not less than five men, commissioned by the State to follow criminals anywhere, regardless of county lines, and * Sheriff, as the Sun remarks, has no incentive-except that of private reward Marx, St. in case of success-to pursue a criminal. Indeed, the greater chances are against the Sheriff recovering any compensation whatever. The result is that the rogues, aware of the fact, and have little fear of long or hot pursuit. Again, highway robberies occur usually in counties least able to bear the expense of a long pursuit of road agents, whereas it is to the interest of all the people that the rascals should be captured. "Escapes" from justice and redany direction at once, and without the fear of being "out of pocket," the results would be greater likelihood of capturing criminals, less expense in "the long run" to the tax-payers, wiser distribution of the burden of cost, and of course greater risk in committing crime, and hence fewer crimes. Moreover, a State constabulary would be distributed at widely separated points, but the men would be in close communication; they would be able to so act that by operating with local officers they could "head off" a criminal in almost any direction he might take. They would be informed instantly of all crimes committed where the offender escaped arrest, and would thus be able to "post" Sheriffs, Marshals, police officers and Constables throughout the State in an hour's time. A little reflection will disclose to anyone how even five men invested with authority as auggested, uncrippled by fear of losing their time and expenses, could block the escape of the great majority of criminals and so work with the fifty-two Sheriffs and several hundreds of other officers as to make crime a great deal more hazardous than now. For ten years the RECORD-Union has presented the subject for publie thought, and always with the indorseanent of Sheriffs, detectives and those best qualified to pass judgment. The Legislature has twice approached the subject in a manner to give encouragement to the

hope that a small constabulary force

An effort has been made in San Francisco to remove the messenger boys from the influences attendant upon their busithe influences attendant upon their busi-ness, if it conducts them to houses of illfame. The companies employing them for such service have been brought into Court in the person of one of the Superintendents. The Court, in overruling a demurrer interposed by the defense, suggested that if the ordinance under which the Superintendent was prosecuted should, SACRAMENTO TURN-VEREIN on appeal, prove to be invalid, as was claimed, then the best way to remedy the evil complained of would be to prosecute the keepers of the houses of ill-fame for permitting minors to visit them on any pretext. The Court went so far as to say TICKETS (Round Trup) that these keepers are most to blame and advised that pending the testing of the validity of the ordinance that course be pursued. But of what avail will be such a resort? Who is to follow up the two or three hundred messenger boys and ascertain just who admits any of the number to an improper house? The subject is one that has awakened considerable interest in San Francisco, and already notice has been served by the press that the people are indignant concerning the matter and will not tolerate continuance of the evil. A society that interests itself in youth has also notified the messenger companies of its intention to spare no means within lawfulness to prevent the messengers being used as stated, so that we may look for a vigorous warfare in this matter. It will be amazing and shameful We haven't got the law for the pursuit and if it turns out that there is no legal means to have some regard for their morals.

Simple Justice-Correction of a Slander.

This is to certify that we exdehanged the upright plano we had with Mr.
John F. Cooper, for one of his new style J.
Mathushes Upright Planes. The reason we did
so was because the upright plano we had all the
tuning tins had pulled down against the thin
iron plate, which gave the plano as thin, barsh,
tin-pany sound, which could not be remedied.
Mr. Cooper now has the plano in exactly the
same condition it was when it left our house,
statements to the contrary not with standing by
the agent of another plano, whose instrument
is made similar to our first plano.

the city.

The fact that Sacramento City is fast filling up and her lots being so rapidly built upon made it necessary to place an addition that would be of real worth to seekers of homes, and in this land all that is needed can be found. To own a lot in Oak Park Addition to Sacramento is to own property in the second commercial city of California. Surrounded by the richest agricultural and horticultural portion of the earth. Right in the center of the greatest fruit-shipping country in the world. Its climate all that could be desired by the most exacting.

Sacramento is daily increasing in population and inside of ten years the thirty thousand people will have swelled to seventy thousand. Think of these brief truths and prepare to spend May Day in getting a Certificate of Furchase in this Association of \$7-May First. OAK PARK Lots not in this association of 350 can also be had for graded prices at private sale for ONE-TRIRD DOWN; BALANCE IN MONTHLY INSTALLMENTS, with interest at

THE BEAUTIFUL PIONEER COLONY OF BUTTE CO., CAL. THERMALITO WAS SURVEYED INTO TOWN LOTS, 50X150. AND 90X 160 feet, and in 1, 2, 5 and 10 acre lots, in June, 1887. Of these lots, 940 were offered for sale direct at \$100 per acre. Terms of sale, one-third cash, one-third in one year, and balance in two years at 8 per cent, per annum. Over one-half of these lots have been sold to bona fide purchasers, who have personally examined the land, soil, location, and water-power and supply, on all of which

THERMALITO CHALLENGES COMPARISON. THE ASSOCIATION OF OFFERS THE FINEST CHANCE FOR A SURE INVESTMENT IN THE STATE. These 500 Lots were set aside from the 1,440, to be improved with the purchase money paid for them, and to be distributed in the following manner: 500 purchasers buy the whole of the lots at \$360 apiece, paying \$30 in cash and \$15 per month, until \$150 is paid on each lott.

WITH THIS MONEY A

Is now being erected, and will be the LARGEST BOTEL in the State north of Sacramento. It is 104 feet wide, 108 feet long, and has an extreme elevation of 80 feet. Standing on a bluff 80 feet above Feather river, with Marysville Buttes in plain view, its situation is at once grand and impressive. Next, a \$5,000 BRICE STORE AND HALL is being built. Also, One \$2,500 Cottage, one \$2,000 Cottage, two \$1,500 Cottages, two \$1,000 Cottages, four \$875 Cottages, and \$1,000 worth of Ornamental Trees Planted. Also, the streets adjoining the lots are being graded, and water is now piped, and being brought in p.pes to each lot under a PRESSURE of from 100 to 150 FEET, to be used FREE FOR THREE YEARS, and at a low rate of Ten Cents per miner's inch for twenty-four hours' flow.

These improvements being made, the 500 owners of the land and improvements will come together and draw for choice of selection of lots among themselves; the FIRST CHOICE taking the ROTEL, or whatever he or she desires, and so on until each owner or holder of a certificate entitling him to a lot has made a selection. After the selections are made a deed will be given upon the payment of the balance of the \$360, either in each or installments of \$15 per month.

THE 500 LOTS ARE AS FOLLOWS: 10-ACRE LOTS. 5-ACRE LOTS. 2-ACRE LOTS. 1-ACRE LOTS. 90x160 LOTS. 50x150 LOTS. TEN NINETY FIFTY FIFTY ONE HUNDRED TWO HUNDRED THE ASSOCIATION SHARES are being rapidly sold, improvements are going on, and on of lots will be made as soon as the last is sold.

THERMALITO ADVERTISES NOTHING that is not to be seen on the tract. It has now FIFTY acres of Orange Trees from two to ten years old. By JUNE 1, 1888, there will be planted in the colony between 250 and 300 acres of CITAUS FRUITS. The healthy location, in squitcent view, the water supply are vouched for. A Splendid Shoe.

People will not leave tried and favorite brands of SHOES for new ones unless there are strong

reasons for so doing. Hence a new make of SHOES that at once springs into favor, crowding out old brands, MUST OF NECESSITY possess strong points of supe-

riority. Such is the history of the B. & H. \$4 SHUE. Although a new production, it has already had a large sale, and is probably just what its makers intended it to be--the BEST Shoe of its kind in the market. It comes in all sizes and several styles.

CITY TRUSTEES.

More Protests Against Street Work-Another Pump to be Ordered. The Board of City Trustees met in regular session, all the members present.

It is a fact becoming more and more ap-parent every day that in a very short space of time Sacramento will have an insufficient water supply, and in fact even now should the Stevens or C. P. pump break down we would know what a water famine means.
The Holly pump cannot supply this city
with water, and another year both the
pumps will be unable to fill the mains and rive any pressure. As it is now, with both oumps running, there is a lack of water supply in some of the upper stories of buildings, and the pressure in the eastern portion of the city is merely nothing. The Trustees agree that something must

be done to increase the pumping capacity. The city is growing with a greater rapidity than any other in Northern California. Its residence portion is extending for miles to the east and south, and there is a constant and persistant cry for more water in those sections. Miles of mains have been laid in the last two years, and as much more will be required in the next six months.

The Mayor wants to invite bids for a new pump immediately. An order was passed nviting bids for a pump with a capacity of needed information upon the subject. There 10.000,000 gallons in twenty-four hours.

also will be found the full programme Superintendent Wolf has prepared staistics showing that in 1878 677,303,660 gallons of water were pumped, and for 1888 1,426,083,180—an increase in ten years of 748.779.440.

J. M. Avery, Chairman of the Committee on Manufactures, made a report concerning the work of the committee in procuring the establishment of another cannery in this city. He stated that the company had been fully organized, nearly all of the \$50,000 of stock had been taken, and that the establishment would be in running order within thirty days.

To the Executive Committee of the Improvement Association of the City and County of Sacramento:

—GENTLEMEN: Your sub Committee on Exposition Building and Grounds beg leave to inform you that the building has been completed, the grounds improved by planting semi-tropical trees and plants, erection of fountain, grading walks, etc., and will be ready for occupancy June 1, 1888

At this point in the proceedings, Governor Waterman came into the room, and after being greeted with applause by the audience, presented the Association with a beautiful American flag for the Exposition building. year to be presented at the annual meeting. A bill for collecting the monthly payments for support of the exposition project was allowed. In connection with this action remarks were made deprecating the fact that persons who had subscribed to this fund did not pay promptly without being dunned, as the notes were payable at D. O. Mill's bank, and it was wrong to have to pay a commission for collection.

"The Dark Secret" is all Mr. Morrison promised it should be. ALIVE AND WELL.

ight. 1888, by the California Associated Press. LONDON, May 28th .- To-day a letter has been received from Lieutenant Bartlelot, who went out to find news of Henry M. Stanley, and it settled the anxiety felt about the explorer's fate. Bartlelot writes from Zanzibar under date of October 28th. He states that deserters from Stanley's camp, after journeying over twenty days, have reached Singatini, and reported Stanley and party alive and well. They were well supplied with food and clothing, and were in no immediate danger of a hostile attack. The deserters can give no news about the route which Stanley proposed to take after

BAKING SOUTHERN

ABSOLUTELY PURE

For quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same. and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

5 and IO-ACRE LOTS IN SUBDIVISION NO. 2. With Town Lots and Unsold Colony Lots in Subdivision No. 1, at

frying Hall, 139 Post st., San Francisco, SATURDAY, une 2, 1888 At 10 o'clock A. M. PALERMO! The Riverside of Upper California, others in fertility of soil, beauty of landscape, and abundance of pure mountain water.

"There has been displayed at Palermo an extraordinary degree of skill and intelligence in every branch of its administration. There have been no mistakes to correct, no labor wasted, no money laid out that has not got an equivalent to show in return."—Evening Bulletin, April 25, 1888.

THE PALERMO COLONY, CONSISTING OF 6,900 acres of the choicest fruit lands in the State, is situated in Butte county, California, in the heart of the Northern Citrus Belt, 170 miles north of San Francisco, and five miles south of Oroville, on the line of the Northern California Railroad. At the town of Palermo there is now a depot and warehouse with side tracks and railroad switches, and within a few weeks a Postoffice and telegraph station will be established.

SOIL AND TOPOGRAPHY. The soil is rich red and black gravelly loam, the adaptation of which to all sorts of fruits has been fully established. Over one-third or more of the tract, including nearly all of Sul

division No I and every part of Subdivision No. 1 and every part of Subdivision No. 2 is perfectly level. The remainder consists of gently rolling hills and valleys where are sites for lovely homes and picturesque villas. Scattered over the tract are giant live and white

A most attractive feature of the Palermo Colony is the splendid system adopted by the Palermo Land Water Company for planting and caring for the groves and orchards of non-residents at actual cost, thus enabling those who cannot well give up their business or occupations to still engage in the profitable enterprise or fruit-growing. While a number of most desirable settlers have located at Palermo and are sirable settlers have located at Palermo and are

Contracts will be awarded to the lowest Contracts will be awarded to the sched-bidder on separate articles named in the sched-bidder on separate articles. During the season just passed, within which trees could be planted—since the formation of the Palermo Colony—nearly 25,000 trees (mostly orange trees three or four years old of the finest

chown in this spiendid lumber district), others would have been built. A Planing Mill, which will employ from thirty to forty men, is in sourse of construction, and a large Hotel will be built by the Company and ready for occupancy he coming Fall. It is intended to make this Hotel the finest in Northern California, creating

Quite a number of good substantial buildings

at Palermo unprecedente dattractio urists and seekers after health in this grea SUBDIVISION NO. 2. Subdivision No. 2, lying along the railroad Subdivision No. 2, lying along the railroad and immediately adjoining the town site of Palermo, is as pretty a piece of perfectly level land as can be found in California to-day. It may truly be called the Cream of the Palermo Colony. It shares every advantage that subdivision No. 1 possesses, and its value, present and future, is established beyond p-radventure. It comes as an offering to the public when this enterprise is no longer an experiment. Purchasers will have the assurance that no future subdivision can compete with it since this is the only public sale that will ever be made of Palermo property. The inducements to at once ac-

cept the opportunity are unparalleled in the history of real estate transactions. Balt will be the last Subdivision offered TOWN LOTS. The town of Palermo must of necessity be a

rmo property. The inducements to at once ac

fruit culture, though destined to become a great and growing one, and possessing spiendid rail-road facilities, with the almost certain prospect of being on a new overland route through the Beckwith Pass, makes an investment there a safe and profitable one. The lots, which are perfectly level, are all 50 feet front and have a depth of 150 feet, except those fronting on Rail-road avenue, which vary from 117 to 180 feet. Lots in Alternate Blocks Only will be

THE TERMS OF SALE Will be very liberal and will apply to both town lots and colony tracts, viz: ONE-THIRD CASH; balance in one and two years, with interest at 7 per cent per annum. Water for irrigation will be furnished free of charge for three years, and thereafter at such rates as are fixed by the Courty Board of Supervisors Purchasers of the next subdivision of the Palermo Colony will new for water from the time they commerced. pay for water from the time they commence tuse it.
